

Cable Address "Edison, New York"

From the Laboratory
of
Thomas A. Edison,

Orange, N.J. March 4th. 1916.

Dr. Charles P. Steinmetz,
Wendell Avenue,
Schenectady, N.Y.

Dear Dr. Steinmetz:

Your esteemed favor of the 28th ultimo in regard to my Storage Battery was received, and it has afforded me a great deal of pleasure in the reading of it.

I value your opinion very highly indeed, and am deeply gratified to find that it justifies the many years of hard work that I have put into the perfection of this type of battery.

I am glad to say that the mild dissipation in which I indulged by attending the Banquet of the Illuminating Engineering Society was more than offset by the honor extended to me by the Society and the good time I had on that occasion.

With kind regards, I remain,

Yours very truly,

Thomas A. Edison
